Summary

Junior Full Stack Developer experienced in building and maintaining production web and mobile applications using React.js, React Native, Django, Node.js, Express.js, and Spring Boot. Contributed to **Kiply.io**, a restaurant operations and food cost management platform, and **Buddii**, a React Native mobile application. Skilled in RESTful APIs, third-party integrations, webhooks, JWT authentication, RBAC, database design, responsive UI development, and production debugging.

Education

FAST NUCES, Karachi **Aug. 2021 – Jun. 2026**
B.Sc. in Computer Science *Karachi, Pakistan*

Experience

GYB Commerce **Jun. 2026 – Present**
Junior Full Stack Developer *Karachi, Pakistan*

- Contribute to **Kiply.io**, a restaurant operations and food cost management platform, developing recipe management, inventory, stock counts, wastage tracking, production batches, food cost analysis, and POS integrations.
- Develop REST APIs and integrate external POS and aggregator systems, including webhook-based order synchronization, reconciliation workflows, API logging, and audit trails using Django, Node.js, Express.js, and PostgreSQL.
- Build responsive React.js interfaces and backend workflows for recipe and sub-recipe management, ingredient and supplier mapping, market lists, recipe price versioning, and operational reporting.
- Contribute to **Buddii**, a React Native mobile application using Expo, implementing onboarding, authentication, deep linking, Google Maps integration, profile management, and API-driven features.
- Debug production issues, integrate third-party services, and deliver features across frontend and backend systems from development through testing and deployment.

Ismail Industries Limited **Jun. 2025 – Jul. 2025**
Front-End Developer Intern (JavaScript) *Karachi, Pakistan*

- Developed responsive internal tools using JavaScript and integrated RESTful APIs for business workflows and data-driven interfaces.
- Built reusable UI components with client-side validation and asynchronous API handling.

Scitforte **Aug. 2024 – Sep. 2024**
Front-End Developer Intern (React.js) *Karachi, Pakistan*

- Developed responsive web applications using React.js and integrated REST APIs for dynamic data retrieval and application workflows.
- Collaborated with backend developers on authentication, API integration, frontend validation, and application debugging.

Projects

Zabiverse | React Native, Node.js, Express.js, MongoDB, AI/LLM

- Developed an AI-powered smart campus assistant using React Native and RESTful backend services, implementing voice recognition, facial recognition, semantic document search, LLM-based question answering, authentication, and RBAC.

QuickHire | Node.js, Express.js, MongoDB **GitHub**

- Built a recruitment platform with REST APIs for job and candidate management, JWT authentication, RBAC, middleware validation, and MongoDB schema design.

Voucher Mall | React, TypeScript, Vite, Spring Boot **GitHub**

- Developed a voucher-based e-commerce platform using React, TypeScript, Vite, and Spring Boot with authentication, authorization, validation, and layered backend architecture.

SyncX Computer Accessories Store | React, Node.js, Express.js, MongoDB **GitHub**

- Developed a full stack e-commerce application with REST APIs, JWT authentication, RBAC, product management, shopping cart, and order processing.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Python, Java, C, C++, SQL
Frontend: React.js, React Native, HTML5, CSS3, Vite, Bootstrap, Material UI, Responsive Design
Backend: Django, Node.js, Express.js, Spring Boot, FastAPI, REST APIs, JWT, Middleware, RBAC
Databases: PostgreSQL, MongoDB, MySQL, Schema Design, Indexing, Transactions
Tools: Git, GitHub, Postman, Docker, Vercel, Linux, API Testing, Debugging, System Design
